Raising the bar of Quality & Compliance in Construction across the Midlands

CE Midlands Quality & Compliance Thought Leadership Group, in collaboration with a selection of national experts, present their approach to raising the bar on the Quality of the Construction delivered in the region through:

• Understanding and promoting the business benefits of clearly defining Quality
• The understanding and adoption of the Get It Right Initiative throughout the project life cycle and the industry generally
• The collaborative sharing of Quality Management tools across all Main Contractors
• The use of digital tools to manage quality on site, allowing more time in the field and less time behind the desk
• Ongoing collaboration and further sharing of best practice and technology in the area of Construction Quality.
