

Shape the future of construction

Exhibit at the Construction
Future Skills Event

Moulton College
Thursday 3 March 2022

In partnership with
National Federation of Builders &
Constructing Excellence Midlands

Overview

Bringing together government, major construction contractors and technology innovators, senior business leaders, educators and future employees, the Construction Future Skills Event is an unmissable opportunity to shape and view the sector's tomorrow, today.

Hosted by Moulton College, Northamptonshire, from 10am-4pm, the exhibition showcases the companies and technology building the future of construction, illustrating the workforce skills it will need.

The Construction Minister is invited, with attendees including industry leaders and VIPs, chief executives, employers, schools and construction talent.

In addition to Moulton College's own 400+ construction students the event will also be open to students from local schools and employers.

Among the confirmed exhibitors are chief executives from major contractors Stepnell and Kier Group, Flannery Plant's plant simulator, digital construction solution Oculo and geo-spatial technology specialists Ridge.

Event partners are Constructing Excellence (CE) Midlands and the National Federation of Builders (NFB).

Who can exhibit?

- Contractors and construction employers
- Technology innovators

What's in it for me?

Unmissable networking

Face-to-face time with key industry leaders, VIPs, contractors and innovators

Meet future talent

Drive real change in the industry by inspiring and shaping the skillsets of the next generation

Promote your technology

Discover a range of commercial possibilities and attract would-be employees

Get hands on

With the latest robotics, AR and VR; see drones, exoskeletons, remote plant, green technologies, power tools and remote-control carriers in action

Meet corporate social responsibilities

Discuss skills-based education needs with educators

Shape and view the sector's tomorrow, today.

All this and more...
